

WEB OF SCIENCE'DE YAYINLANAN MAKALE VE ATIF LİSTESİ OLUŞTURMA

Öncelikle <https://www.webofscience.com/wos/author/search> link ile Web of Science sayfasına giriş yapıyoruz.

Karşımıza çıkan ekranda 'RESEARCHERS' adımını seçiyoruz.

The screenshot shows the Web of Science Author Search interface. The page is titled "Web of Science" and "Author Search". The "RESEARCHERS" tab is selected, and the form contains the following fields and buttons:

- DOCUMENTS** (selected)
- RESEARCHERS** (selected)
- Name Search** (dropdown menu)
- Last Name *** (text input field)
- First Name and Middle Initial(s)** (text input field)
- + Add name variant** (button)
- Clear** (button)
- Search** (button)

At the bottom of the page, there is a promotional banner with the text: "Jump back into your research - try out our new personalized homepage dashboard. Don't have an account? Register for a new account. Sign in to access".

Karşımıza çıkan sayfaya Ad ve Soyadımızı açık bir şekilde yazıyoruz. Kısaltma kullanıldığı zaman farklı Hocaların eserleri de listede görünebildiği için Ad-Soyadımızı yazarken kısaltma kullanmıyoruz.

The image shows a search interface with two tabs: **DOCUMENTS** and **RESEARCHERS**. The **DOCUMENTS** tab is active. It features a **Name Search** dropdown menu, a **Last Name *** input field containing the text **Temiz**, and a **+ Add name variant** button. The **RESEARCHERS** tab contains a **First Name and Middle Initial(s)** input field containing the text **Gamze**. At the bottom right, there are **Clear** and **Search** buttons. Two blue arrows point from the text above to the **Last Name *** and **First Name and Middle Initial(s)** input fields.

Search'a bastığımızda aşağıdaki gibi çalıştığımız üniversite bilgilerinin ve makalelerinizin olduğu bir sayfa karşımıza geliyor. Bu sayfanın görüntüsünü makale ya da atıf listenizin başına eklemeniz gerekmektedir.

Abstract

Introduction: The present study was planned and carried out as a descriptive and cross-sectional study for determining the Type 2 diabetes risks and healthy lifestyle behaviors of first year university students.

Material and Methods: The study was carried with 185 students at a foundation university in Istanbul during the dates of November-December 2019. The data were acquired online via Student Information Form, Type 2 Diabetes Questionnaire (FINDRISK) and Healthy Lifestyle Behaviors Scale.

Results: The mean age of the students in the study was 19.79 +/- 2.47 years, 53.5 % (n=99) were male, 29.7 % (n=55) previously graduated from another university, 62.1 % (n=115) were students and it was determined that 50.3 % (n=93) had diabetic relatives. It was observed when the diabetes risk status was examined for all participants that they are in the low risk group due to a FINDRISK total score of <7.

Conclusion: The study results emphasize the importance of determining the risk for university students to be diabetic in the next decade, putting forth the individuals with high risk and moving onto the next stage for diagnosis. In addition, it has been determined that the level of knowledge of students may have a positive impact on their healthy lifestyle behaviors.
